You **don't** need to be funny to do this.

Most people think improv is for comedians. Or Kenny G, but...

That's a myth.

The truth is improvisation is a set of skills and techniques that can help anyone react and adapt more quickly and confidently in any situation.

And learn to communicate and collaborate at a higher level.

**It's like jiu-jitsu for your communication skills.
Except nobody gets hurt.**

At PowerProv we'll never expect you to be funny, put you on the spot, or assume you're an extrovert.

We'll just help you perform where it matters most – at work and in life.

Three great reasons to believe:

Scientific proof for skeptics and super-fans.

The PowerProv Personal Power Index™ is a longitudinal study that proves what we witness year after year in our workshops and classes: [This stuff works.](#)

Transforming teams, improving businesses, and changing lives.

There's a reason we're [so popular](#). And it has everything to do with delivering a real ROI for your training budget with fun workshops that never feel like work.

Our goal is to be so good, you hire us more than once.

Nothing worse than realising you've accidentally hired a hack. That will never happen with us. And if you ever disagree, we'll return your investment minus costs.

@powerprov

No comedians, clowns or bad actors.

Workshops that work, but don't feel like work.

Unlike the training you'd get from a comedy school or improv theatre where the focus is on being funny, PowerPov workshops are led by highly-trained, business-focussed facilitators who will frame our unique curriculum around your company goals and desired outcomes.

- Unlock the power of "yes, and..."
- Help people connect, communicate, and collaborate better.
- Find more confidence, resilience, and agility.

Learn from Pros who operate in the real world.

We offer a winning combo of playful fun for introverts and extroverts that delivers real tools and techniques you can put to immediate use to support each other and hold each other accountable.

No trust falls. No Powerpoint. No B.S.

Every PowerProv session is built on a proven curriculum loaded with behavioral science and procedural learning.

Our workshops are tried and tested - and fun.

Participants will be on their feet and active during all activities and exercises. Comfortable shoes and clothes are suggested for all participants

Everyone will be fully engaged in a session that is playful, remarkable, memorable...

And valuable.

What's the cost of **not** doing this?

In today's competitive landscape, everyone on your team needs every advantage they can get.

Join the 100s of successful business professionals who already operate with the PowerProv edge.
